***Allowable Subject Matter***

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance:

the present invention is generally related to an apparatus for encoding and decoding speech signal. The claims are allowed, because the prior arts of record do not teach the gain encoding section for calculating an average amplitude of a frequency spectrum stream as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
